

LR₉ PATROL

About the boat:

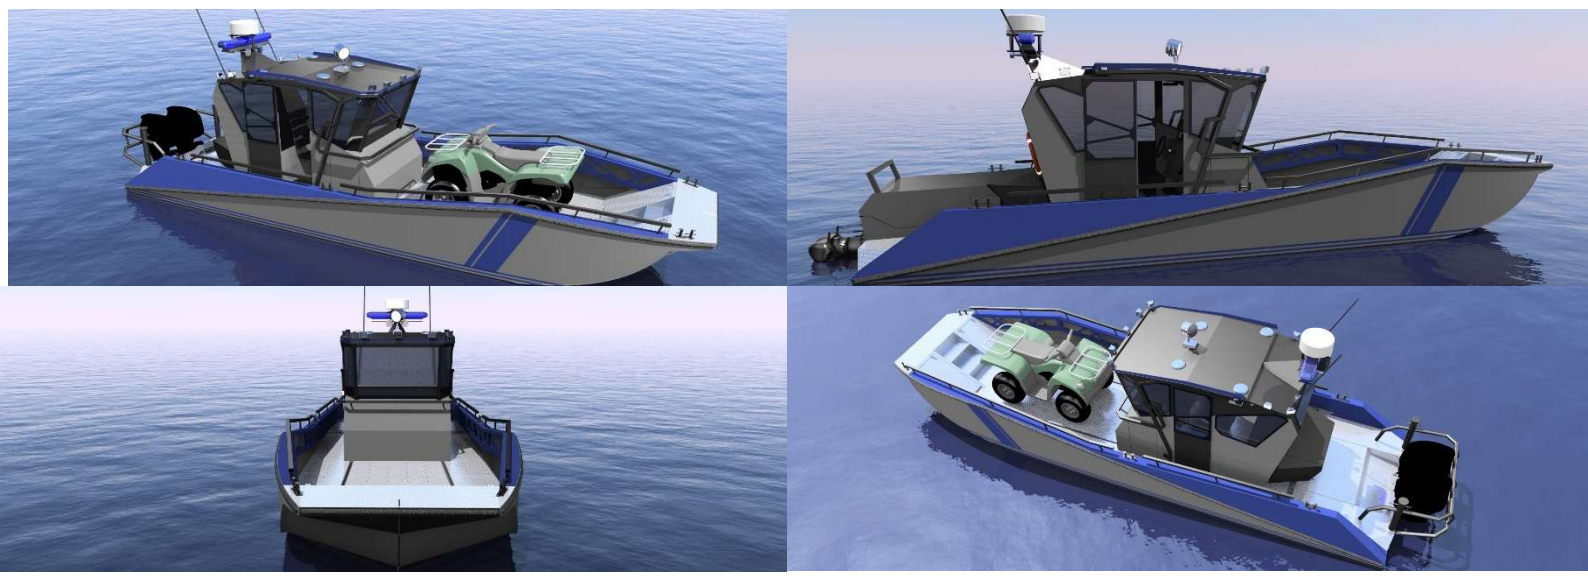

This boat designed for river and lake patrol or other emergency services. The boat has flat-bottom design which makes it really fast and effortless on rivers and lakes where waves are less than 1 meter high.

The boat has extremely good accessibility to shallow water areas. Flat-bottom design makes it stable and the boat has only 0.33 meter draft. This makes is easy to land on river or lake shores for work or even loading ATVs from the boat's bow.

The boat has really big room for cargo so this boat could also be used as a transporter of equipment to hardly reachable places. Since the boat can be loaded with up to 2 tons it can also be used as a small fire emergency boat. The big space is also suitable for diving operations.

The boat can be equipped for any purpose with the help of our team of naval specialists. Tell us what you need and we will make it happen.
